7 August 2006

Dear Nick,

Request to vary the timetable for Urgent Modification Proposal P205, "Increase in PAR level from 100MWh to 500MWh" ("P205")

Thank you for your letter dated 2 August, highlighting that the data processing required to support the assessment of P205 will be completed earlier than was initially anticipated.

In view of this, the Panel was seeking our agreement to shorten the timetable for its consideration of P205. The revised timetable would see the Urgent Modification Report issued to the Authority on 15 September, rather than 27 September as initially planned.

We are happy to agree to this shortened timetable in recognition of the early progress that has been made.

If you have any queries in relation to the issues raised in this letter, please feel free to contact me on the number above.

Yours sincerely

Nick Simpson
Director, Industry Codes and Licensing
