07 May 2003

Dear Nicholas,

**Urgent Modification to the Balancing and Settlement Code: Modification Proposal P128**

Thank you for your letter to Nick Simpson with regard to the Urgent Modification Proposal and Timetable for Modification Proposal P128 dated 7 May 2003. I am responding on his behalf.

In your letter you state Elexon's recommendation that Modification Proposal P128: 'Correction of Erroneous Energy Contract Volume Notification Errors in Specifically Defined Limited Circumstances' submitted by Gaz de France Marketing Limited on the 6 May 2003 be treated as an Urgent Modification Proposal for the purposes of section F2.9 of the Balancing and Settlement Code (BSC). You also set out a proposed procedure and timetable for Modification Proposal P128.

The Gas and Electricity Markets Authority (the "Authority") consents to the Modification Proposal P128 being treated as an Urgent Modification Proposal for the purposes of section F2.9 of the BSC.

The Authority has considered the procedure and the timetable proposed by the BSC Panel in relation to Modification Proposal P128 and it agrees that this procedure and timetable should be followed.

Yours sincerely,

A handwritten signature in black ink that reads "Sonia".

**Sonia Brown**  
Director, Electricity Trading Arrangements
