

<b>Change Proposal – F40/01</b>	<b>CP No: 1091</b>  <i>Version No: 2.0</i>
<b>Title: Housekeeping Changes to Settlement Documentation</b>	
<b>Description of Problem/Issue</b>  ELEXON has identified a number of Code Subsidiary Documents and other Configurable Items that require minor housekeeping changes in order to correct manifest errors, resolve inconsistencies and remove redundant requirements.	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  The set of proposed changes are contained in the attachment to this CP. In addition to these specific changes, this CP proposes the replacement of the Poolit copyright statement prevalent in many of the Supplier Volume Allocation (SVA) documents. Going forward under the GB BSC, all settlement documentation should be brought under the copyright control of ELEXON Ltd as the GB BSCCo.	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  The changes identified are not material however their implementation will improve clarity and ensure the documents are fully reflective of current operational processes. It is intended that these changes be carried out alongside the re-badging activities required for BETTA, which are expected to impact almost all settlement documentation.

### **Impact on Core Industry Documents**

## Change Proposal – F40/01

CP No: 1091

*Version No: 2.0*

Furthermore, all SVA documentation would be potentially impacted by the proposed replacement of the Poolit copyright statement, including BSCPs, the SVA Data Catalogue, PSLs, SVAA Service Lines and SVA-related URSs.

### Related Changes and/or Projects

The proposed changes to BSCP40 and BSCP76 may be superseded by CP1074 (Providing greater Structure and Certainty to the Progression of Change Proposals) and CP1076 (Incorporation of the Content of BSCP 76 'Submission of, and communications relating to, Modification Proposals' into BSCP 40 'Change Management'). These are both currently being progressed through the Change Management process in line with BSCP40.

### Requested Implementation Date

February 2005

### Reason:

The necessary documentation changes for BETTA Go-Live are being implemented as part of the February 2005 release; this includes general re-badging of almost all settlement documentation. It would therefore be advantageous to carry out these housekeeping changes at the same time.

### Agreed Release/Implementation Date *(mandatory by BSCCo)*
