

Draft Change Proposal – BSCP40/01	DCP No: 0022 <i>Version No: 1.0</i> <i>(mandatory by BSCCo)</i>
Title <i>(mandatory by originator)</i> New Service Description for the SVAA	
Description of Problem/Issue <i>(mandatory by originator)</i> As part of the procurement phase of Project Isis, ELEXON drafted detailed contracts of Business Requirements for the CVA, SVA and FAA Agent Services to issue to tenders. As a result of this it has been determined that a new SVAA Service Description should be produced to take the place of the seven SVAA Service Lines on the current BSC Baseline. This will ensure the service requirements for all the BSC Agents are set out in a consistent manner.	
Justification for Change <i>(mandatory by originator)</i> The proposed new SVAA Service Description is necessary to make sure that the new contracts in February 2009 are consistent with the Business Requirements of the CVA and SVA Operator Hosts.	
Proposed Solution(s) <i>(mandatory by originator)</i> DCP0022 seeks to introduce the new SVAA Service Description. The draft version of the SVAA Service Description is provided as Attachment A to this DCP. The proposed new SVAA Service Description will be added to the Baseline Statement and treated in line with other existing Service Descriptions; meanwhile the SVAA Service Lines will be withdrawn.	
Version History <i>(mandatory by BSCCo)</i> N/A	
Has this DCP been raised for discussion by a Working Group <i>(optional by originator)</i> : N
