

Change Proposal – F40/01	CP No: 991 Version No:
Title <i>(mandatory by originator)</i> MDD Error - MTC LLFC SSC Combinations Screen	
Description of Problem/Issue <i>(mandatory by originator)</i> The drop-down list within the Maintain Valid MTC LLFC SSC Combinations screen produces a display of valid LLFC/SSC Combinations for selection and standard operational procedures involve the system operator selecting a valid combination using this drop down list. Under test conditions it has been demonstrated that it is possible to input an invalid LLFC/SSC combination by circumventing the standard operational procedures. It is possible to enter an MS Specific LLFC of 'A' where the SSC Type is 'E' andan MS Specific LLFC of 'C' where the SSC Type is 'I', both of which are invalid combinations.	
Proposed Solution(s) <i>(mandatory by originator)</i> To change the MDD application the next time that it is develop.	
Justification for Change <i>(mandatory by originator)</i>	

Change Proposal – F40/01	CP No: 991 Version No:
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i>	
Impact on Core Industry Documents <i>(optional by originator)</i>	
Related Changes and/or Projects <i>(mandatory by BSSCo)</i>	
Requested Implementation Date <i>(mandatory by originator)</i> 28 August 2003-08-21 Reason: Next Release of MDDA	
Agreed Release/Implementation Date <i>(mandatory by BSSCo)</i>
