

Change Proposal – F40/01	CP No: 987 Version No: 1.0
Title <i>(mandatory by originator)</i> ECVAA URS – CRA Processing of ECVNA & MVRNA Authorisations with Historic Dates	
Description of Problem/Issue <i>(mandatory by originator)</i> <p>Through operational experience, it has become apparent that the timescales referred to in ECVAA URS are impractical in relation to historic dates. The timescales defined in the URS needs to be reviewed in light of operational practice. These timescales do not allow for a one day notification period for terminations in the case of historic dates. Currently, the URS requires that these forms to be rejected.</p>	
Proposed Solution(s) <i>(mandatory by originator)</i> <p>Amend the URS to allow the Agent to apply the earliest available EFD, rather than applying the principles from the URS and rejecting forms with 'historic' dates. For example, if the BSCP71 Forms state an EFD of 14 May 2003 and the matching Form was received on 14 May 2003, IMServ would enter the earliest available EFD, in this case, 15 May 2003.</p>	
Justification for Change <i>(mandatory by originator)</i> <p><i>To clarify and allow for notification period in the case of terminations with historic dates.</i></p>
