

Change Proposal – BSCP40/01	CP No: 1141 <i>Version No: 1.0</i>
Title: Revision to Apportionment form F536/02 in BSCP536.	
<p>Description of Problem/Issue: A number of reports are defined in BSCP536 that will be provided to Parties containing information about Supplier Charges. One of these reports is the ‘Supplier Charge Apportionment Report’, this report details the charges that are due to one or more Parties when a transfer of Supplier ID has occurred during a reporting period (calendar month). The current Apportionment Report (F536/02) in BSCP536 needs revision to reflect the design of the report that will be produced as part of P99 PARMS Release 4. The current report, produced well in advance of the system developments, does not reflect a suitable level of information that makes it useful to the reader. The particular changes proposed are that the individual charges on the report will be pre-capping. Two totals - one ‘Uncapped Serial Charge’ and one ‘Capped Serial Charge’ - should be included on the report. The text “post capped” in the header should be removed</p>	
<p>Proposed Solution(s): The report should be amended to the design given in Attachment 1 to this CP</p>	
<p>Justification for Change <i>(mandatory by originator)</i> This change will align the report in the BSCP with the actual report that will be produced by the apportionment system, which will contain the relevant detail for Parties affected by an apportionment of Supplier Charges.</p>	
<p>Is the Change being proposed a Housekeeping Change? <i>(optional by originator)</i> N¹</p>	
<p>Configurable Items Potentially Affected by Proposed Solution(s): BSCP536</p>	
<p>Impact on Core Industry Documents or System Operator-Transmission Owner Code <i>(optional by originator)</i></p>	

¹ The relevant Panel Committee will decide whether a Change Proposal can be progressed as a Housekeeping Change Proposal.

Change Proposal – BSCP40/01
