

Change Proposal – BSCP40/01	CP No: 1130 <i>Version No: 1.0</i>
Title <i>(mandatory by originator)</i> Inconsistency between BSCP507 and BSCP38 with regards to Authorised Signatures	
Description of Problem/Issue <i>(mandatory by originator)</i> BSCP38 'Authorisations' states that Category W signatories are responsible for submitting SVA Standing Data changes. BSCP507 'Supplier Volume Allocation Standing Data Changes' Form 507/01 states that BSC Change Administrators (BCA) Signatories are responsible for submitting all SVA Standing Data changes. Furthermore, working practice is that the form will be accepted if it is submitted by a BCA, and rejected if it is from a Category W signatory. BSCP40 'Change Management' specifies who a company's BCA Signatory is. Currently, the BSCPs contradict each other.	
Proposed Solution(s) <i>(mandatory by originator)</i> The BSCP507/01 form should be amended so that it shows that a Category W signature must sign off all changes to Standing Data. It is recommended that current BCA signatories, be automatically added as Category W signatories upon implementation of this Change Proposal. On an ongoing basis BSC Parties will not automatically become category W signatories upon registration as a BCA signatory. <u>Impact on Parties</u> BSC Parties who are BCA signatories and not Category W signatories will no longer be able to submit SVA Standing Data changes. This is to be mitigated by authorising all BCAs as Category W signatories on implementation of this Change Proposal.	
Justification for Change <i>(mandatory by originator)</i> The BSCPs contradict each other with regards to who can sign off Standing Data forms. This causes confusion as some participants believe that their Category W signatories should be able to submit SVA Standing Data changes and in practice they cannot. This change will allow BSC Parties to have more than one person authorised to submit SVA Standing Data changes. If only the BCA is able to submit these changes, then it may be difficult for Parties to meet the BSC requirements and notify SVA Standing Data changes within 5WD.	
Is the Change being proposed a Housekeeping Change? <i>(optional by originator)</i> No	

Change Proposal – BSCP40/01	CP No: 1130 <i>Version No: 1.0</i>
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by originator)</i> BSCP507 (change to BSCP507/01 form).	
Impact on Core Industry Documents or System Operator-Transmission Owner Code <i>(optional by originator)</i> None Identified	
Related Changes and/or Projects <i>(mandatory by BSCCo)</i> None	
Requested Implementation Date <i>(mandatory by originator)</i> Next Available Release Reason: There is an inconsistency in the Code Subsidiary Documentation, which is leading to confusion amongst participants. This should be addressed at an opportune time.	
Agreed Release/Implementation Date <i>(mandatory by BSCCo)</i> Targeted at the CVA February 06 Release	
Originator's Details: <i>BCA Name</i> <i>Organisation</i> <i>ELEXON</i> <i>Email Address</i> <i>ccc@ELEXON.co.uk</i> <i>Date</i> <i>09/05/2005</i>
