

Change Proposal – F40/01	CP No: 942 Version No:
Title <i>(mandatory by originator)</i> Minor Corrections to BSCP507 and BSCP508	
Description of Problem/Issue <i>(mandatory by originator)</i> Following the implementation of the SVA Documentation Batch Release in February 2003, errors in BSCP507 and BSCP508 have been identified by the SVA Agent in their commercial review and require correction at the next available opportunity.	
Proposed Solution(s) <i>(mandatory by originator)</i> BSCP507 v4.0: The arrow linking steps 3.2.7 and 3.2.10 in the workflow diagram for NHH BM Unit Standing Data Changes should be deleted, as it incorrectly implies that in the event of a BM Unit Allocation error, the decision of BSCCo is not required. BSCP508 v8.0: The last two items of Section 4 are incorrectly labelled as 3.3.6 and 3.3.7, and so should be changed to 3.4.6 and 3.4.7.	
Justification for Change <i>(mandatory by originator)</i> In addition to correcting minor errors, the raising of this CP allows the SVA Agent to give formal agreement to BSCP507 v4.0 and BSCP508 v8.0, and thus also agreement to the changes included in the SVA Documentation Batch Release.	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i> BSCP507 and BSCP508	
Impact on Core Industry Documents <i>(optional by originator)</i> None	
Related Changes and/or Projects <i>(mandatory by BSCCo)</i>
