Description of change:

3.1.4 ECVAA Interfaces [\[CP1221\]](#)

ECVAA-I009	ECVN Rejection Feedback	to	BSC Party	Electronic data file transfer
ECVAA-I009	ECVN Rejection Feedback	to	ECVNA	Electronic data file transfer
ECVAA-I010	MVRN Rejection Feedback	to	BSC Party	Electronic data file transfer
ECVAA-I010	MVRN Rejection Feedback	to	MVRNA	Electronic data file transfer

7.8 ECVAA-I009: (output) ECVN Rejection Feedback

Interface ID: ECVAA-I009	User: BSC Party, ECVNA	Title: ECVN <u>Rejection</u> Feedback	ITT reference: ECVAA SD: 8.3, A ECVAA BPM: 3.3, 4.22, 4.23, 4.24, 4.25 RETA SCH: 4, B, 3.2 CR 12, CP527, CP703, P98, <u>CP1221</u>
Mechanism: Electronic Data File Transfer	Frequency: Continuous, for rejected ECVNs and ECVN components	Volumes: Medium	
Interface Requirement:			
<p>The ECVAA Service shall issue ECVN <u>Rejection</u> Feedback to BSC Parties and ECVNAs continuously to report:</p> <ol style="list-style-type: none"> i. the rejection of ECVNs on receipt; and ii. the rejection of ECVN components during the half-hourly credit check process. <p>The ECVN Feedback shall comprise:</p> <p><u>Rejected ECVN:</u></p> <ul style="list-style-type: none"> ECVNA Id ECVNAA Id ECVN ECVNAA Id ECVN Reference Code Effective From Date Effective To Date (optional) Settlement Period (1-50) Energy Contract Volume (MWh) Rejection Reason, including: <ul style="list-style-type: none"> Invalid time stamp Level 2 Credit Default <p>Notes:</p> <ol style="list-style-type: none"> i. For rejection of ECVNs on receipt, the ECVN <u>Rejection</u> Feedback shall comprise the original details received in the ECVN (except the ECVNAA Key). ii. For rejection of ECVN components during the half-hourly credit check process, the ECVN <u>Rejection</u> Feedback shall comprise the single Settlement Period component from the original ECVN which is rejected. iii. Each Party and their ECVNA receives feedback on Notifications as determined from the ECVNAA used in submission (subject to Reporting Options selected by the Party and ECVNA for that ECVNAA - see ECVAA-F003). 			

7.9 ECVAA-I010: (output) MVRN Rejection Feedback

Interface ID: ECVAA-I010	User: BSC Party, MVRNA	Title: MVRN <u>Rejection</u> Feedback	ITT reference: ECVAA SD: 9.2, A RETA ERR: 2 ECVAA BPM: 3.3, 4.22, 4.23, 4.24, 4.25 RETA SCH: 4, B, 3.2 CR 12, CP527, CP703, P98, <u>CP1221</u>
Mechanism: Electronic Data File Transfer	Frequency: Continuous, for rejected MVRNs and MVRN components	Volumes: Medium	
Interface Requirement:			
<p>The ECVAA Service shall issue MVRN <u>Rejection</u> Feedback to BSC Parties and MVRNAs continuously to report:</p> <ol style="list-style-type: none"> i. the rejection of MVRNs on receipt; and ii. the rejection of MVRN components during the half-hourly credit check process. <p>The MVRN Feedback shall comprise:</p> <p><u>Rejected MVRN:</u></p> <ul style="list-style-type: none"> MVRNA Id MVRNAA Id MVRN MVRNAA Id MVRN Reference Code Effective From Date Effective To Date (optional) Settlement Period (1-50) Metered Volume Fixed Reallocation (MWh) Metered Volume Percentage Reallocation (%) Rejection Reason, including: <ul style="list-style-type: none"> Invalid time stamp Level 2 Credit Default 100% Total Exceeded <p>Notes:</p> <ol style="list-style-type: none"> i. For rejection of MVRNs on receipt, the MVRN <u>Rejection</u> Feedback shall comprise the original details received in the MVRN (except the MVRNAA Key). ii. For rejection of MVRN components during the half-hourly credit check process, the MVRN <u>Rejection</u> Feedback shall comprise the single Settlement Period component from the original MVRN which is rejected. iii. Each Party and their MVRNA receives feedback on Notifications as determined from the MVRNAA used in submission (subject to Reporting Options selected by the Party and MVRNA for that MVRNAA - see ECVAA-F004).
