

<b>Change Proposal – F40/01 (Page 1 of 2)</b>	CP No: 896 <i>(mandatory by BSCCo)</i>
<b>Title</b> <i>(mandatory by originator)</i> Amendment to BSCP75 'Registration of Meter Aggregation Rules for Volume Allocation Units' to indicate when Aggregation Rules are being submitted as part of a Meter Registration Transfer.	
<b>Description of Change</b> <i>(mandatory by originator)</i>  When carrying out a registration transfer in accordance with BSCP68 'Transfer of Registration of Metering Systems between CMRS and SMRS', Aggregation Rules must be submitted via BSCP75 'Registration of Meter Aggregation Rules for Volume Allocation Units'. The Central Data Collection Agent (CDCA) enters the Aggregation Rules into their systems at different times depending on whether they are associated with a Registration Transfer or with a new registration. Therefore, when Aggregation Rules are submitted, there needs to be an indication on the relevant form as to whether they are associated with a Registration Transfer or a new registration.	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  Add a tick box to BSCP75, form BSCP75/4.2 'Registration of Meter Aggregation Rules for Volume Allocation Units', and the following wording: Tick box if this is a Registration Transfer in accordance with BSCP68. This should be placed between the section for Authorised Signatory and Section 1.	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  When the CDCA receive the BSCP75/4.2 Registration of Meter Aggregation Rules For Volume Allocation Units' form they will process it in accordance with BSCP75 and then enter the Aggregation Rules into their systems. When form BSCP75/4.2 is submitted as part of a Registration Transfer in accordance with BSCP68, although the Aggregation Rules will be validated in accordance with BSCP75, they will not be entered into CDCA systems until the Effective From Date for the Registration Transfer has been confirmed by BSCCo. Where a Registration Transfer is to take place, the BSCP75/4.2 form may not be submitted to CDCA at the same time as the Registration Transfer form. This may mean that the details on the BSCP75/4.2 form are validated and entered into the CDCA systems, as the CDCA did not realise that it was associated with a Registration Transfer. The addition of a tick box on form BSCP75/4.2, to identify that the Aggregation Rules are being submitted as part of a Registration Transfer will ensure that in these cases, Aggregation Rules are not entered into CDCA systems until confirmation of the Registration Transfer Effective From Date has been received by the CDCA from BSCCo.	
<b>Other Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by BSCCo)</i> None	
<b>Impact on Core Industry Documents</b> <i>(optional by originator)</i> None	
<b>Related Changes and/or Projects</b> <i>(mandatory by BSCCo)</i> None
