

<b>Change Proposal – F40/02 (Page 1 of 2)</b>	<b>CP No: 682</b> (mandatory by BSCCo)
<b>Title</b> (mandatory by originator) Upgrade to the ISRA/SVAA software to run on the Oracle 8 platform	
<b>Description of Change</b> (mandatory by originator)  The ISRA software currently uses Oracle 7.3.4. Support for Oracle 7.3.4 expired on 31 December 2000. The ISR/SVA Agent has taken out an extended support contract for 2001 and will obtain a further extension into 2002 in order to retain support for their current system. However the ISRA/SVAA software must be upgraded to run on Oracle 8, as support for Oracle 7 cannot be renewed indefinitely.	
<b>Proposed Solution(s)</b> (mandatory by originator)  Amend the ISRA/SVAA software to run on Oracle 8.1.7.1	
<b>Justification for Change</b> (mandatory by originator) The ISRA/SVAA software will be running on an unsupported Oracle platform at some point in the future if this change is not progressed.	
<b>Other Configurable Items Potentially Affected by Proposed Solution(s)</b> (optional by BSCCo) Logica ISRA/SVAA Physical Design and Logical Design	
<b>Impact on Core Industry Documents</b> (optional by originator) None	
<b>Related Changes and/or Projects</b> (mandatory by BSCCo) SIR R2997 (CR2998) - "Support for the current version of Oracle for ELEXON-owned software will expire at the end of 2000 (NHHDA & EAC/AA elements)"
