

Change Proposal – F40/01 (Page 1 of 2)	CP No: 790 <i>(mandatory by BSCCo)</i>
<p>Title <i>(mandatory by originator)</i></p> <p>Distribution of Supplier Purchase Matrix (D0041) files to Suppliers.</p>	
<p>Description of Change <i>(mandatory by originator)</i></p> <p>Footnote 6 of step 3.3.2.3 of BSCP505 'Non Half Hourly Data Aggregation for SVA Metering Systems Registered in SMRS' explains that the D0041 'Supplier Purchase Matrix Data File' are sent by Non Half Hourly Data Aggregators (NHHDA) to Suppliers in accordance with the Settlement Calendar, but also '...as required, by arrangement between the NHHDA and the Supplier.' This suggests that Suppliers can opt not to receive this dataflow.</p> <p>This optionality is not supported by the NHHDA software developed for go-live and so NHHDA's attempting to meet the BSCP requirements are incurring extra costs.</p> <p>This CP has been raised from SIR R2253 'Distribution of Supplier Purchase Matrix Data (D0041) files to Suppliers'.</p>	
<p>Proposed Solution(s) <i>(mandatory by originator)</i></p> <p>The reference to an optional service should be removed from the footnote in BSCP505, making the D0041 dataflow mandatory.</p>	
<p>Justification for Change <i>(mandatory by originator)</i></p> <p>The service met by the NHHDA's will be consistent with that delivered by the NHHDA software. Therefore NHHDA's will not be required to deliver an optional service, and Suppliers will not have to notify NHHDA's of their reporting requirements; both will result in a cost saving.</p>	
<p>Other Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by BSCCo)</i></p> <p>None.</p>	
<p>Impact on Core Industry Documents <i>(optional by originator)</i></p> <p>None.</p>
