

Change Proposal – F40/01 (Page 1 of 3)	CP No: 779 <i>(mandatory by BSCCo)</i>
<p>Title <i>(mandatory by originator)</i></p> <p>Clarification to the proving of Half Hourly Metering Systems in BSCP502.</p>	
<p>Description of Change <i>(mandatory by originator)</i></p> <p>A clarification is required to the proving rules detailed in Appendix 4.6 of BSCP502 'Half Hourly Data Collection of SVA Metering Systems Registered in SMRS' version 4.0.</p>	
<p>Proposed Solution(s) <i>(mandatory by originator)</i></p> <p>In section 4.6.1 of Appendix 4.6 BSCP502, which explains when proving tests should be carried out on Half Hourly Metering Systems, the fourth bullet should be amended to read:</p> <ul style="list-style-type: none"> ▪ 'Following a concurrent Change of Supplier and change of HHDC and where there has been manual intervention of the MTD;' <p>The bold text highlights the new text to be included.</p>	
<p>Justification for Change <i>(mandatory by originator)</i></p> <p>Proving tests are required to be initiated following concurrent Changes of Supplier and HHDC when the Meter Technical Details (MTD) have been manually intervened in some way; though this is not reflected in BSCP502. This is the same condition as that which applies to single change of Half Hourly Data Collector (refer to bullet point 2 of section 4.6.1 of Appendix 4.6).</p> <p>The circumstance in which a proving test should be initiated should apply equally whether or not there is a single change of Half Hourly Data Collector or a coincident change of Supplier and Half Hourly Data Collector.</p>	
<p>Other Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by BSCCo)</i></p> <p>None.</p>	
<p>Impact on Core Industry Documents <i>(optional by originator)</i></p> <p>None.</p>	
<p>Related Changes and/or Projects <i>(mandatory by BSCCo)</i></p> <p>None.</p>
