

<p align="center">Change Proposal – F40/02 (Page 1 of 2)</p>	<p>CP No: 592 <i>(mandatory by BSCCo)</i></p>
<p>Title <i>(mandatory by originator)</i> Data Items with Decimal Formats consistent with NETA Data File Catalogue</p>	
<p>Description of Change <i>(mandatory by originator)</i></p> <p><i>Derived from Problem Management record 24445</i></p> <p>Make all NETA Central Services software consistent with decimal formats in the NETA Data File Catalogue.</p>	
<p>Proposed Solution(s) <i>(mandatory by originator)</i></p> <p>The NETA Data File Catalogue V3.0 Section 4.4.4 defines the decimal format to be used by NETA Central Services interfaces.</p> <p>Amend all NETA Central Systems software so that those Data Items with format "Decimal" follow the rules set out in section 4.4.4.</p> <p><i>For example, Data Item N0332 "Indebtedness" in Data Flow ECVAA-I014 has a format Decimal (8,5). Therefore, if it's value is 0.1234, the Data Item should be written as "0.1234" to be consistent with the NETA Data File Catalogue, but currently it is written incorrectly as ".1234".</i></p>	
<p>Justification for Change <i>(mandatory by originator)</i></p> <p>Where NETA Central Systems interface with other Parties and Agents, the NETA Data File Catalogue is the common specification for Data Flows passing to or from the NETA Central Services.</p> <p>Software developers for external Parties and Agents will rely on the NETA Central Services being consistent with the specification in the NETA Data File Catalogue when developing related software systems.</p>
