

<b>Change Proposal – F40/01 (Page 1 of 2)</b>	<b>CP No: 753</b> <i>(mandatory by BSCCo)</i>
<b>Title</b> <i>(mandatory by originator)</i> Improvements to the Metering Registration Process	
<b>Description of Change</b> <i>(mandatory by originator)</i> Amend BSCP68, forms and related documents.	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i> A number of changes need to be made to BSCP 68 and therefore related documents to clarify and simplify the transfer process and to remove inconsistencies. For example <ul style="list-style-type: none"> <li>• Rewritten BSCP 68 timetable</li> <li>• Rewritten BSCP 68 forms</li> <li>• Changes to timetables in related BSCPs</li> </ul>	
<b>Justification for Change</b> <i>(mandatory by originator)</i> Following the transfer of 16 sites from Supplier Meter Registration Service (SMRS) to Central Meter Registration Service (CMRS), in accordance with BSCP 68 'Transfer of registration of metering systems between CMRS and SMRS', a number of concerns with BSCP 68 and associated BSCP's were identified including, <ul style="list-style-type: none"> <li>• Inappropriately defined timescales</li> <li>• Inconsistent and inappropriate time sequencing between associated BSCP's</li> <li>• Lack of contact detail submitted to Transfer Co-ordinator</li> <li>• Lack of clarity of roles and responsibilities.</li> </ul> <p>A number of PMR's were raised during the transfer procedure including,</p> <ul style="list-style-type: none"> <li>• PMR 23447, BSCP 20, BSCP 28, BSCP 68. (Anomalies in timesteps between procedures for transferring a site from SMRS to CMRS)</li> <li>• PMR 27787, Clarification regarding proving tests (for transfers from SVA to CVA)</li> <li>• PMR 28020, Clarification of BSCP 20 proformas (with regard to transfers from SVA to CVA)</li> <li>• PMR 28234, Another BSCP 68 anomaly – mismatch with BSCP 75</li> <li>• PMR 28456, Role confusion in BSCP 68 registration transfers</li> </ul> <p>These problems caused delays in registrations and so these changes will allow following transfers to proceed efficiently, using a less erroneous procedure.</p>	
<b>Other Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by BSCCo)</i> BSCP 20 Registration, Commissioning and Proving of Metering Systems for Central Volume Allocation Add footnotes to 3.1.1 and 3.1.7 to align timesteps in this procedure to the proposed BSCP 68.  BSCP 28 Approval and Notification of CVA Line Loss Factors Add footnote to 3.1.1 to align timesteps in this procedure to the proposed BSCP 68  BSCP 75 Registration of Meter Aggregation Rules For Volume Allocation Units. Add footnote to 3.1.1 to align timesteps in this procedure to the proposed BSCP 68	

<b>Impact on Core Industry Documents</b> <i>(optional by originator)</i>
<b>Related Changes and/or Projects</b> <i>(mandatory by BSCCo)</i>
