

Change Proposal	<p>CP No: 1375</p> <p><i>Version No: v1.0</i> <i>(mandatory by BSCCo)</i></p>
<p>Title <i>(mandatory by originator)</i> Increasing Material Impact Threshold</p>	
<p>Description of Problem/Issue <i>(mandatory by originator)</i></p> <p>BSCP128 ‘Production, Submission, Audit and Approval of Line Loss Factors’ allows for the correction of Material Manifest Errors.</p> <p>A Manifest Error is ‘ An unambiguous error in the application of the approved methodology, in the calculation input data or corruption of the LLF values in the submission process in such a way that there is a material impact on Settlement or a material impact to the advantage or detriment of the customer.’</p> <p>In order for a Manifest Error to have a Material impact, it must have ‘An impact or estimated impact that has a value or estimated value of over £500.’</p> <p>In the creation of BSCP128 the £500 Material impact threshold was set using the Trading Disputes Materiality Threshold as a guidance value. However, The Trading Dispute threshold has since risen to £3,000 and BSCP128 has remained the same. Therefore BSCP128 should be updated to align with this figure.</p>	
<p>Proposed Solution <i>(mandatory by originator)</i></p> <p>We propose a change to the definition in BSCP128 of “Material impact: Retrospective Changes”. It will be amended from:</p> <p><i>“An impact or estimated impact that has a value or estimated value of over £500.”</i></p> <p>To:</p> <p><i>“An impact or estimated impact that has a value or estimated value greater than or equal to the Materiality Threshold for rectification of a valid Trading Dispute (as defined in BSC Procedure BSCP11).”</i></p>	
<p>Justification for Change <i>(mandatory by originator)</i></p> <p>The Material impact should align with the Trading Disputes Materiality Threshold specified in BSCP11 ‘Trading Disputes’</p>	
<p>To which section of the Code does the CP relate, and does the CP facilitate the current provisions of the Code? <i>(mandatory by originator)</i></p> <p>The CP facilitates the current provisions of BSC Section K1.7.14</p>	
<p>Estimated Implementation Costs <i>(mandatory by BSCCo)</i></p> <p>One ELEXON man day of effort to implement the redlined changes. One ELEXON man day equates to £240.</p>	

Configurable Items Affected by Proposed Solution(s) *(mandatory by originator)*

BSCP128 Section 1.8.2

Impact on Core Industry Documents or System Operator-Transmission Owner Code *(mandatory by originator)*

No Impact

Related Changes and/or Projects *(mandatory by BSCCo)*

No related changes and/or projects

Requested Implementation Date *(mandatory by originator)*

Requested Implementation for February 2013 Release

Reason:

The sooner this CP is implemented the sooner it can align with BSCP11

Version History *(mandatory by BSCCo)*

We raised v1.0 of this CP on 29 June 2012

Originator's Details:
