

**DCP 179 CONSULTATION RESPONSE FORM**

To: Rosalind Timperley  
 Email: [DCUSA@electralink.co.uk](mailto:DCUSA@electralink.co.uk)  
 Fax: 020 7432 2842

Name:	Simon Fox
Organisation:	ELEXON Ltd
Role:	Central Body
Email address:	simon.fox@elexon.co.uk; elexon.change@elexon.co.uk
Phone number:	020 7380 4299
Response <sup>1</sup> :	Non-confidential

**1. Do you have any comments on the updated DCP 179 legal text?**

Yes

We suggest that clauses 132a and 135a are amended to reflect that the Supplier as Registrant can register HH sites to Measurement Classes C and E and where this is the case that the tariffs associated with these will be applied from the DCP179 go live.

We believe that this would then assist in any transitional period should P272 be approved, so that Supplier can migrate the majority of NHH PC 5-8 Metering Systems to HH Measurement Class E (or C where this meets the requirements for 100kW) prior to a P272 go live date of 1 April 2016 or later.

**2. What is your preferred approach for the legal text for paragraph 140c with respect to how the aggregated tariffs should be set up where the DNO utilises a form of de-linking?**

Whilst ELEXON is neutral on this, adding provisions to cater for de-linking seems to be a pragmatic approach under the circumstances.

**3. Are there any unintended consequences of the alternative proposal for paragraph 140c?**

We do not foresee any. However, we intend that the P300 Workgroup consider this in developing its solution.

<sup>1</sup> All responses will be treated as non-confidential unless indicated otherwise.

Anonymous responses will omit the detail of the submitting party but the content of the response will be provided to the Working Group and published on the DCUSA website.

Confidential responses will not be published on the DCUSA website but submitted solely to the Working Group for the analysis of the CP. For all other confidentiality requirements please contact the secretariat at [DCUSA@electralink.co.uk](mailto:DCUSA@electralink.co.uk) or 0207 7432 3017

Responses to this consultation should be submitted to [DCUSA@electraLink.co.uk](mailto:DCUSA@electraLink.co.uk) no later than **Friday, 18 July 2014**.
