Question 1: Do you agree with the CP1423 proposed solution?

Summary

Yes	No	Neutral/No Comment	Other
6	1		

Responses

Respondent	Response	Rationale
British Gas	Yes	–
EDF Energy	No	<p>We do not believe the 50 working day lead time for LLF registration is appropriate and LLF registration should not be a significant time constraint to switch between SMRS and CMRS systems.</p> <p>The solution should look at reducing this timescale to enable relevant parties opportunity to benefit from their preferred choice of registration system at an earlier time. We believe that maintaining existing LLF or defaulting LLF values until existing LLF values can be transferred could be achieved to enable swifter registration between systems.</p>
Electricity North West Ltd	Yes	The proposed solution will ensure that the mismatches between relevant BSCP's are resolved by removing any conflicting information. This will improve consistency across those procedures.
RWE npower	Yes	–
ScotttishPower	Yes	–
SSEPD	Yes	–
TMA Data Management Ltd	Yes	CP1423 corrects some discrepancies and provides more clarity to market participants.

Question 2: Do you agree that the draft redlining delivers the CP1423 proposed solution?

Summary

Yes	No	Neutral/No Comment	Other
6	1		

Responses

A summary of the specific responses on the draft redlining can be found at the end of this document.

Respondent	Response	Rationale
British Gas	Yes	–
EDF Energy	No	On the basis the proposal is looking to make the procedure more efficient we do not believe the drafting delivers solution given the delay in transfer of LLF values.
Electricity North West Ltd	Yes	We believe that the redlining will deliver the proposed solution.
RWE npower	Yes	–
ScottishPower	Yes	–
SSEPD	Yes	–
TMA Data Management Ltd	Yes	–

Question 3: Will CP1423 impact your organisation?

Summary

Yes	No	Neutral/No Comment	Other
	7		

Responses

Respondent	Response	Rationale
British Gas	No	–
EDF Energy	No	There would be limited impact on our systems and processes.
Electricity North West Ltd	No	This CP will not cause an adverse impact to our current processes.
RWE npower	No	–
ScottishPower	No	–
SSEPD	No	–
TMA Data Management Ltd	No	–

Question 4: Will your organisation incur any costs in implementing CP1423?

Summary

Yes	No	Neutral/No Comment	Other

Summary

Yes	No	Neutral/No Comment	Other
7			

Responses

Respondent	Response	Rationale
British Gas	Yes	–
EDF Energy	Yes	–
Electricity North West Ltd	Yes	The approach for this CP to be included in the next available release would seem reasonable.
RWE npower	Yes	–
ScottishPower	Yes	–
SSEPD	Yes	–
TMA Data Management Ltd	Yes	–

Question 6: Do you believe that BSCP68 is no longer a relevant document?

Summary

Yes	No	Neutral/No Comment	Other
2	4	1	

Responses

Respondent	Response	Rationale
British Gas	Yes	–
EDF Energy	No	Whilst the transfer of metering systems between SMRS and CMRS is a rare event we still believe BSCP68 to be relevant.
Electricity North West Ltd	No	Whilst the procedure may not be used very often it would be more difficult to find the information you needed when working on a Transfer of Registration Metering Systems between CMRS and SMRS if it were buried in other procedures where their title may not easily identify the content.
RWE npower	No	–
ScottishPower	No	Although the process is rarely invoked, now that the document is to be updated, retain it for the time being for guidance.
SSEPD	Yes	We agree with SVG's view as BSCP68 has been invoked so infrequently that it should be retired. We are unable to determine any circumstances where it would be used.
TMA Data Management Ltd	No Comment	–
