29 May 2015

Dear Lawrence

RE: Modifications to Documents Maintained Under Licences (EMR No. 1 of 2015)

The balancing and settlement code (the "BSC") and related documents require further consequential amendments in connection with the reform being made to the electricity market under powers contained in the Energy Act 2013 (the "Act").

The Secretary of State has therefore made modifications to the BSC (as a document maintained under licences), as set out below, in exercise of the powers conferred by sections 26, and 64(8), (9) and (13) of the Act.

Before making the modifications, the Secretary of State consulted in accordance with sections 26(4) of the Act.

A draft of the modifications was laid before Parliament in accordance with section 64(2) of the Act. Neither House of Parliament resolved, within the 40-day period referred to in section 64(3) of the Act, that the Secretary of State should not make the modifications. The Secretary of State has therefore made modifications to:

- Sections F, K, S and Annex X-1 of the BSC with effect from 25 June 2015.
- BSC subsidiary document BSCP503 with effect from 25 June 2015.

I attach a copy of the modifications for your records.

Yours sincerely

Jonathan Mills
Director, Electricity Market Reform

Cc Adam Lattimore, BSC Modification Secretary, Elexon
