### About This Document

This document is the Change Proposal (CP) Assessment Report for CP1470 which ELEXON will present to the Imbalance Settlement Group (ISG) at its meeting on 20 September 2016. The ISG and Supplier Volume Allocation Group (SVG) will consider the proposed solution and the responses received to the CP Consultation before making a decision on whether to approve CP1470.

There are five parts to this document:

- This is the main document. It provides details of the solution, impacts, costs, and proposed implementation approach. As this a housekeeping change, this document does not include the ISG's or SVG's initial views on the proposed changes and the views of respondents to the CP Consultation.
- Attachments A-D contain the proposed redlined changes to deliver the CP1470 solution.

# 1 Why Change?

## Background

[P266 'Improving the allocation of Reactive Power flows between Import and Export Metering Systems'](#) was implemented on 23 February 2012 as part of the February 2012 BSC Release. This introduced additional paragraphs to the following Codes of Practice (CoPs):

- [CoP 1 – Code of Practice for the Metering of Circuits with a Rated Capacity Exceeding 100MVA for Settlement;](#)
- [CoP 2 – Code of Practice for the Metering of Circuits with a Rated Capacity Not Exceeding 100MVA for Settlement Purposes;](#)
- [CoP 3 – Code of Practice for the Metering of Circuits with a Rated Capacity Not Exceeding 10MVA for Settlement Purposes;](#) and
- [CoP 5 – Code of Practice for the Metering of Energy Transfers with a Maximum Demand of up to \(and Including\) 1MW for Settlement Purposes.](#)

This had the effect of incrementing the numbering of the 'Overall Accuracy' section in each of these CoPs from 4.2.1 to 4.3.1.

## What is the issue?

As a result of the implementation of P266, the 'Overall Accuracy' requirements in CoP 1, 2, 3 and 5 are in section 4.3.1. However, currently sections in these CoPs incorrectly reference the 'Overall Accuracy' sections as 4.2.1 and not 4.3.1.

# 2 Solution

## Proposed solution

[CP1470 'Housekeeping Change to CoPs 1, 2, 3 and 5 following P266'](#) proposes to make a Housekeeping Change<sup>1</sup> to correct the manifest error in CoPs 1, 2, 3 and 5. This will amend the sections which incorrectly reference section 4.3.1 'Overall Accuracy' section as 4.2.1.

## Proposer's rationale

This change proposes to amend this manifest error, to prevent the risk of confusion and inconsistencies.

## Proposed redlining

The proposed redlined change to CoPs 1, 2, 3 and 5 to deliver CP1470 can be found in Attachments A-D.

<sup>1</sup> BSCP40 'Change Management' defines a Housekeeping CP as "a Change Proposal which, if approved, would result in a Housekeeping Change to one or more Configurable Items in the Baseline Statement". It defines a Housekeeping Change as "the correction of manifest errors, minor errors and inconsistencies, including typographical errors (e.g. punctuation errors, spelling mistakes, incorrect font, incorrect capitalisation) incorrect cross-referencing, and the removal of redundant text".

The ISG and SVG jointly own COP 3, while the ISG owns COPs 1 and 2, and the SVG own CoP 5. As such, both committees are required to approve CP1470.

## 3 Impacts and Costs

### Central impacts and costs

#### Central impacts

CP1470 will require an update to CoPs 1, 2, 3 and 5. No central system changes are required and there will be no impact on BSC Agents.

Central Impacts	
Document Impacts	System Impacts
<ul style="list-style-type: none"><li>• CoP 1</li><li>• CoP 2</li><li>• CoP 3</li><li>• CoP 5</li></ul>	<ul style="list-style-type: none"><li>• None</li></ul>

#### Central costs

The central implementation costs for CP1470 will be approximately £240 (one ELEXON working day) for ELEXON to implement the relevant document changes.

### BSC Party & Party Agent impacts and costs

#### Participant impacts

CP1470 will not impact any BSC Parties or Party Agents as this is a Housekeeping Change.

As CP1470 is a Housekeeping CP it does not require a CP Consultation as there are no impacts or costs on participants to implement the changes.

## 4 Implementation Approach

### Recommended Implementation Date

CP1470 is proposed for implementation on **23 February 2017** as part of the February 2017 BSC Systems Release, as this is the next available Release.

Amending this error as soon as possible will prevent any confusion and inconsistencies, which could in turn lead to non-compliance.

## 5 Recommendations

We invite you to:

- **AGREE** that CP1470 is a Housekeeping CP as defined in BSCP40;
- **APPROVE** the proposed changes to CoP 1, 2, 3 and 5 for CP1470; and
- **APPROVE** CP1470 for implementation on 23 February 2016 [as part of the February 2016 Release].
