

Redlined BSCP18 text for CP1480 v2.0 ‘Creation of a new authorisation category for corrections to BOA related data’.

This CP proposes changes to sections 1.2, 1.5 and 3.1. We have redlined these changes against Version 9.0.

There is no impact on any other part of this document for this CP.

1.2 Main Users of the Procedure and their Responsibilities

The main users of this BSCP are:

- *BSCCo* – witness and authorise the correction process for each change made (including SO-Flag changes) and confirm that any corrections made are in accordance with the changes agreed (excluding SO-Flag changes) between the affected BSC Parties and the TC.
- *BSC Parties* – Category A or Category E Authorised Person either confirms that settlement error has occurred and agrees to the proposed corrections or disagrees with the proposed corrections giving reasons (excluding SO-Flag and STOR Flag changes). Agreement by a Category E Authorised Person will be sought in the first instance, or agreement by a consenting Category A Authorised Person if no Category E Authorised Persons are available within the timescales set out in 3.1.3 and 3.1.4.
- *TC* – submit agreed corrections directly to the SAA for manual update prior to the Initial Settlement Run. After this point, all corrections must be submitted using the Trading Disputes process detailed in BSCP11.
- *BMRA* – receives corrections via electronic transfer (FTP) directly from TC Energy Balancing System (EBS). EBS will replace BM System.
- *SAA* – receives corrections from TC or BMRA and determines the most appropriate changes to be made to the database in order to ensure that the data concerning the Bid-Offer Acceptance accurately reflects the steps taken by the affected BSC Parties and / or the SO-Flag field is correctly reflected in the database.
