## Circular

---

Type and number **MDD Circular 00766**

---

Date and time **10 February 2022**

---

Purpose **For Information**

---

To **Market Participants**

---

From **MDD Co-ordinator**

---

### Workaround for loading Market Domain Data (MDD) Version 320

Elxon identified an issue with the Clock Time Change following the Publish of the MDD v320 data files. This may cause issues for Participants loading the D0269 or D0270 files received via e-mail or downloaded from the Elxon Portal.

This issue does not affect the files distributed via the DTN. Therefore, Participants who have received the D0269 and D0270 via the DTN do not have to deploy the workaround.

Elxon will correct this in MDD Version 321 with a go-live date of 16 March 2022. Until this is rectified, you might need to make the following manual amendment before loading the D0269 or D0270 files before loading into your systems.

**Please edit the below lines in red to the D0269 and D0270 file;**

**D0269 - line 128**

**D0270 - line 5**

**CTC|~~2222~~1030|010000|010000**

**Change 2222 to 2022**

If you have any questions or concerns, please email the BSC Service Desk [bscservicedesk@cgi.com](mailto:bscservicedesk@cgi.com) and copy in the MDD Mailbox [mddc@elxon.co.uk](mailto:mddc@elxon.co.uk)
