22 May 2002

Dear Nicholas,

Urgent Modification to the Balancing and Settlement Code: Modification Proposal P84

Thank you for your letter in regard to the Urgent Modification Proposal and Timetable for Modification Proposal P84 dated 22 May 2002.

In your letter you state Elexon's recommendation that Modification Proposal P84: 'Amendment To Process For Past Notification Errors (2)' raised by Innogy plc on the 22 May 2002 be treated as an Urgent Modification Proposal for the purposes of section F2.9 of the Balancing and Settlement Code (BSC). You also set out a proposed procedure and timetable for Modification Proposal P84.

The Gas and Electricity Markets Authority (the "Authority") consents to the Modification Proposal P84 being treated as an Urgent Modification Proposal for the purposes of section F2.9 of the BSC.

The Authority has considered the procedure and the timetable proposed by the BSC Panel in relation to Modification Proposal P84 and we agree that this procedure and timetable should be followed. It should be noted that if the decision is made to reject Modification Proposal P83, it may be appropriate to modify the timetable for Modification Proposal P84.

Yours sincerely,

A handwritten signature in black ink, appearing to read "A. N. Simpson", written over a horizontal line.

Nick Simpson
Director Industry Codes Development.
