

P216 Transmission Company Analysis and Impact Assessment – Response Pro-forma

In accordance with paragraph F2.8 of the Code, please respond to the following questions concerning P216 (including the rationale for each response):

Q	Question	Response
1	Please outline any impact of the Proposed Modification (and, if applicable, any Alternative Modification) on the ability of the Transmission Company to discharge its obligations efficiently under the Transmission Licence and on its ability to operate an efficient, economical and co-ordinated transmission system.	No impact is expected since P216 proposes changes to the Audit arrangements for Line Loss Factors which are used under the BSC in Settlement at the SVA level. Changes at the SVA level typically have no impact on National Grid.
2	Please outline the views and rationale of the Transmission Company as to whether the Proposed Modification (and, if applicable, any Alternative Modification) would better facilitate achievement of the Applicable BSC Objectives.	National Grid agrees that P216 would improve and facilitate the administration of LLFs within Settlement and therefore we believe that this would better facilitate the achievement of the applicable BSC objectives.
3	Please outline the impact of the Proposed Modification (and, if applicable, any Alternative Modification) on the computer systems and processes of the Transmission Company, including details of any changes to such systems and processes that would be required as a result of the implementation of the Proposed Modification (and, if applicable, any Alternative Modification).	As the changes proposed in P216 would occur at the SVA level we do not believe there will be any impact on the computer systems and processes of National Grid.
4	Please outline any potential issues relating to the security of supply arising from the Proposed Modification (and, if applicable, any Alternative Modification).	None.
5	Please provide an estimate of the development, capital and operating costs (broken down in reasonable detail) which the Transmission Company anticipates that it would incur in, and as a result of, implementing the Proposed Modification (and, if applicable, any Alternative Modification).	None expected.
6	Please provide details of any consequential changes to Core Industry	None.

P216 TC Analysis Form

Q	Question	Response
	Documents and/or the System Operator Transmission Owner Code that would be required as a result of the implementation of the Proposed Modification (and, if applicable, any Alternative Modification).	
7	Any other comments on the Proposed Modification (and Alternative Modification if applicable).	No.

Please send your responses by **17:00** on **Tuesday 15 January 2008** to modifications@elexon.co.uk.

Any queries regarding the analysis should be addressed to Ysanne Hills on 0207 380 4162, email address ysanne.hills@elexon.co.uk.
