

P244 – ALTERNATIVE LEGAL TEXT

SECTION Q: BALANCING MECHANISM ACTIVITIES (version 20.0)

6. SUBMISSION OF DATA BY THE TRANSMISSION COMPANY

6.1 Submission of data to the BMRA

Amend paragraph 6.1.18 as follows:

6.1.18 Every 5 minutes the Transmission Company shall send to the BMRA the Total Instantaneous Out-Turn Generation, expressed as an instantaneous MW value for each of the following Fuel Type Categories:

- (a) CCGT Modules;
- (b) Oil Plant;
- (c) Coal Plant;
- (d) Nuclear Plant;
- (e) Power Park Modules;
- (f) Pumped Storage Plant;
- (g) Non Pumped Storage Hydro Plant;
- (h) Open Cycle Gas Turbine Plant;
- (i) External Interconnection flows from France to England;
- (j) External Interconnection flows from Northern Ireland to Scotland; ~~and~~
- (k) External Interconnection flows from the Netherlands to England;
- (l) each further External Interconnection approved as a further category by the Panel (after such consultation with Parties and interested third parties as the Panel considers necessary) from time to time; and
- ~~(k)~~ m) a single category containing any other generation not covered by (a)-~~(j)~~ above.
