Detailed Level Impact Assessment of P175

| Organisation | Comments |
|--------------------------------------|--|
| Dave Morton EDF Energy | <p>Would the Proposed Modification, as outlined in the attached Requirements Specification, impact your organisation?</p> <p>Yes. In that inevitably there would be a change to the processing of financial values. We do not envisage new system requirements for this. The occurrences are expected to be very infrequent, so our processing is likely to be manual.</p> <p>If yes, please provide a description of the impact, any costs incurred, and the implementation timescale required:</p> <p>We would expect these all to be operational costs in handling these infrequent events.</p> |
