<b>Title:</b> Replace reference to 'EASL' with 'Teleswitch Agent' in the SVA Data Catalogue	
<b>Description of Problem/Issue</b>  Data Flow D0277 'Teleswitch Contact Interval Data File' contains references to EASL as the BSC Teleswitch Agent. However, EASL ceased its activities at the end of 2003 and the Teleswitch Agent Contract was novated to the Energy Networks Association (ENA). Therefore references to EASL in the D0277 data flow should be removed. To prevent this issue occurring again following a reprocurement of the Teleswitch Agent Contract, references to EASL should be replaced with generic references to the Teleswitch Agent.	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  Replace references to EASL in the D0277 flow in the SVA Catalogue with references to the Teleswitch Agent.  For consistency it would be beneficial if the Data Transfer Catalogue is also changed to replace references to EASL. A DTC CP will therefore be raised to address these instances.	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  The change serves to correct an inconsistency which was introduced when EASL ceased acting as the Teleswitch Agent. The correct convention in BSC documentation should be to refer to BSC Agents by their contracted role, not by their company name.  Note that this change does not imply that the ENA as the new Teleswitch Agent will stop using the 'EASL' Participant ID. Any change to the ID used would impact Market Domain Data and require potential software changes, and would provide no benefit to Parties.

<b>Requested Implementation Date</b>  At the next suitable release.  <b>Reason:</b>  This is a low priority documentation-only change and so should be progressed on an opportune basis alongside other changes to the SVA Data Catalogue and the DTC.
