

CP1328 – BSCP71 Redline Text v0.1

Amendment to Section 1.1– Delete ‘request ECVAA Web Service’ from document purpose

1.1 Purpose and Scope of the Procedure

The purpose of this BSCP is to enable the submission of Energy Contract Volume Notifications (ECVNs) and Metered Volume Reallocation Notifications (MVRNs) to the

Energy Contract Volume Aggregation Agent (ECVAA). It describes the process for submitting notifications, and replacing previously submitted notifications.

The procedure enables participants who wish to become Energy Contract Volume Notification Agents (ECVNA) or Meter Volume Reallocation Notification Agents (MVRNA) to register as such Party Agent types with the Central Registration Agent (CRA). It then enables each Party to authorise an ECVNA or MVRNA for the purpose of providing ECVNs or MVRNs to the ECVAA.

Notification authorisation may be established on a single or dual basis: a single notification authorisation is where the same ECVNA or MVRNA is appointed by both Parties; a dual notification authorisation is where a different ECVNA or MVRNA is appointed by each Party. In addition the procedure also caters for a single Party wishing to provide to ECVAA, ECVNs related to its two Energy Accounts.

The procedure describes the process by which ECVNs and MVRNs are submitted by ECVNAs and MVRNAs, and provides details of the data required in a valid notification. It also provides details of the rules for:

- Refusal or rejection of an otherwise valid notification because of Credit Default;
- Termination of ECVNA and MVRNA Authorisations; and
- Procedures to allow Contract Trading Parties to nullify all notified volumes between two accounts providing all authorisations between those accounts have already been terminated. (Note that this nullification procedure is not selective: specification occurs at the BSC Party level and is for use when it is imperative to nullify all notified volumes between a Party and Counter Party).

In addition, the procedure allows Parties, ECVNAs and MVRNAs to specify changes to their ECVAA notification feedback reporting options for each authorisation (including the ability to opt out of receiving reports), ~~and also to register to use the ECVAA web-based notification submission and reporting service.~~

~~Upon successful completion of registration, applicants will also~~ will be able to access ~~to the ECVAA Web Service. For further information contact the BSC Service Desk~~ ~~via BSC Service Desk.~~

Amendment to Section 1.2 – Remove references to the ECVAA Web Service
