¹ A change to end the use of an AFYC Set will not be permitted if it results in SVA Metering Systems having invalid combinations of Profile Class, SSC and GSP Group.

² The annual updates of these entities will be progressed simultaneously.

³ ~~A valid clock interval may not cover the end of a Settlement year. Where a Supplier desires a clock interval to cover a year end then it must be provided to the BSCCo in two parts e.g., 00:30–07:30 1 October to 30 April clock interval would be split in two parts e.g., part 1 00:30–07:30 1 October to 31 December and part 2 00:30–07:30 1 January to 30 April.~~
