

CP1270 – Proposed redlined changes to BSCP509 'Changes to Market Domain Data' v16.0

Changes are proposed to BSCP509 v16.0 Sections 1.3, 1.5, 1.6, and 4.

1.3 Use of the Procedure

This BSCP must be used to progress all changes to those data items designated as MDD. The need to make changes to MDD may be identified by the Panel, one of its Panel Committees, relevant BSC Agents, or Parties, depending upon the nature of the change. Appendix 4.1 outlines who can raise an MDD CR and provides a list of MDD Entities. In order to progress an MDD CR, the originator is required to complete the MDD CR (using F509/01) together with the valid section from the MDD Entity Form. Appendix 4.4 outlines the MDD Entity forms used by this BSCP.

There are two key milestones in this BSCP:

- The SVAA is to be notified by BSCCo of a change to MDD no later than 7 Working Days (or as otherwise agreed between BSCCo and the SVAA) before the Go Live Date.
- MPs have 2 Working Days from the receipt of the MDD to contact BSCCo if they believe that the change to MDD as notified is not as agreed or invalid. If BSCCo determines that the MDD publish is not as agreed ~~Go Live Date will be delayed¹, and notice will be given of the revised details of the next publication in accordance with this BSCP. it will assess the severity of the impact of any error. BSCCo will then determine whether any relevant error should be removed in the next publish of MDD or whether the emergency fix process should be used (see Section 3.5).~~

~~Where MPs find that the MDD as published is not as approved, this must be queried/disputed via BSCP11 "Trading Queries and Trading Disputes". In the event that such a Trading Dispute is upheld, the correction will be published as specified in BSCP11. In the meantime the emergency fix process may be used.~~
