

<b>Change Proposal – BSCP40/01</b>	<b>CP No: 1168</b>  <b>Version No: 1.0</b>
<b>Title</b> <i>(mandatory by originator)</i>  Deemed Readings following Change of Measurement Class	
<b>Description of Problem/Issue</b> <i>(mandatory by originator)</i>  BSCP504 section 3.1.1 describes the process for change of Measurement Class from NHH to HH, and can apply with or without coincident change of Supplier. In step 3.3.1.7, deemed meter readings are required to be sent to the old Supplier and LDSO by the NHHDC by SSD+8, using either a D0086 ‘Notification of Supplier Readings’ flow (in the case of a coincident CoS) or a D0010 ‘Metering Readings’ flow (if there is no concurrent CoS).  The reference to the D0010 in this step is incorrect as 3.3.1.7 is only intended to apply in cases where there is a coincident CoS. This is indicated by the previous step 3.1.1.6, which states ‘If concurrent CoS and CoMC and Meter register reading invalid or not received by SSD+8’.	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  Remove the reference in step 3.3.1.7 to the D0010 being sent to the Supplier and LDSO.	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  The current wording gives the impression that, for CoMC with no concurrent CoS, NHHDCs should deem readings within 8WD of the CoMC date. In fact, for this scenario the process described in steps 3.3.1.8 to 3.3.1.11 should be followed, and deeming should only take place if no readings are received from the MOA or Supplier following a direct request by the NHHDC, which may be up to 25WD after the CoMC date.  The change will offer a more accurate description of the requirements on NHHDCs for deeming meter readings in relation to CoMC.	
<b>Is the Change being proposed a Housekeeping Change?</b> <i>(optional by originator)</i>  N <sup>1</sup>	
<b>Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by originator)</i>  BSCP504 ‘Non-Half Hourly Data Collection for SVA Metering Systems Registered in SMRS’	
<b>Impact on Core Industry Documents or System Operator-Transmission Owner Code</b> <i>(optional by originator)</i>  None	

<sup>1</sup> The relevant Panel Committee will decide whether a Change Proposal can be progressed as a Housekeeping Change Proposal.
