

CP1255 Proposed redlined changes to BSCP20

BSCP20, v15.0

REF	WHEN	ACTION	FROM	TO	INFORMATION REQUIRED	METHOD
3.1.9	At least 16WD prior to REFD and after receipt of MSID allocation.	If no objections to the registration, provide Meter Technical Details.	MOA or Registrant	CDCA	BSCP20/4.3, Registration of Meter Technical Details Signed by an authorised person, registered as such via BSCP38 (CDCA-I003 Meter Technical Details)	Fax/Post/Email
3.1.10	Within 1WD of receipt of 3.1.9	CDCA verify <u>validate</u> the Meter Technical Details provided by the MOA or Registrant are consistent and compliant to the relevant CoP taking into consideration any dispensation applicable and inform MOA or Registrant of any discrepancies. ¹	CDCA	MOA or Registrant	Meter Technical Details (CDCA-I051)	Fax/Email

¹ Where the Meter Technical Details are not ~~consistent or not compliant to the relevant CoP~~ valid the registration will be rejected, and the MOAs or Registrant will be required to resubmit the Meter Technical Details under step 3.1.9.

In addition to the change described above, the following housekeeping changes are proposed as part of this CP:

- The title of BSCP06 will change following the implementation of CP1242 'Movement of the functional requirements within PSL 180 "CVA Meter Operation" into BSCP02 and BSCP06' in the November 2008 release and so should be reflected in the Associated BSC Procedures section.
- References to BDTP38 (the BETTA Data Take On Procedure for Authorisations) may now be removed following the necessary run-off of the initiation activities required for the British Electricity Trading and Transmission Arrangements (BETTA) introduced in 2005.
- References to BSCP531 'Accreditation' and the associated footnote may now be removed, as this document will be replaced by the new BSCP537 'Qualification Process for SVA Parties, SVA Party Agents and CVA MOAs' which will be implemented by P207 in November 2008.

The redlining for these changes is as follows:

1.5 Associated BSC Procedures

This procedure interfaces with the following BSCPs:

...

~~BSCP06 Notification and Sealing of Metering Equipment for Central Volume Allocation~~
~~Operations for Metering Systems Registered in CMRS~~

~~BSCP38 Authorisations (or where appropriate BDTP38). Please note references throughout this document to BSCP38 also relate to the associated BDTP38 where appropriate~~

~~BSCP531 Accreditation²~~

2.1 List of Acronyms

The following is a list of acronyms used in BSCP20:

~~BDTP—BETTA Data Take On Procedure~~

~~² Following the implementation of P197 on 23 August 2007, all new applicants will be subject to the new Qualification process set out in BSCP537. However, any applicants that have started, but have not yet completed, the Accreditation process under BSCP531 should continue according to the process, before being deemed as Qualified on completion. As a result, there will be a nine month transitional period where BSCP531 will exist alongside BSCP537. From 23 May 2008, BSCP531 will be withdrawn.~~
