

Change Proposal – F40/01 (Page 1 of 2)	CP No: 973 Version 1.0
Title <i>(mandatory by originator)</i> Extension of Parameters of Party Name field on Central Systems	
Description of Change <i>(mandatory by originator)</i> Section A4.2(a) of the Balancing and Settlement Code refers to Party Registration data as including its full name and contact details. Central Systems currently only allows for a maximum of 30 characters to be entered in the Party Name field. As a result some Party names have been truncated on Central Systems. Concerns have been raised by Parties that the Party Name entered on Central Systems should correspond with the name provided on the BSCP65 registration forms and on the ELEXON website.	
Proposed Solution(s) <i>(mandatory by originator)</i> Extend the parameters of the Party Name field on Central Systems to allow for 60 Characters to be entered.	
Justification for Change <i>(mandatory by originator)</i> The Code states that Party Registration Data includes the Party's full name. Where a Party has a name which has more than 30 characters, the name has to be truncated on Central Systems which is inconsistent with BSC Section A4.2(a).
