

Change Proposal – F40/01	CP No: 969 Version No:
Title <i>(mandatory by originator)</i> Change to the SVA Data Catalogue to state that all relevant fields within data flows should be completed.	
Description of Problem/Issue <i>(mandatory by originator)</i> The Data Transfer Catalogue (DTC) contains, in Annex A (A21) the phrase 'Participants are advised to populate ALL data items and groups where the data is available and the business reason for sending the flow indicates that the data is relevant to the recipient if it is provided'. There is no corresponding statement in the SVA Data Catalogue.	
Proposed Solution(s) <i>(mandatory by originator)</i> Add into the SVA Data Catalogue a phrase similar to that contained in A21 of the DTC.	
Justification for Change <i>(mandatory by originator)</i> Some fields in dat flows contained in the SVA Data Catalogue (and the DTC) are optional, since the data is not always available or relevant to be included in the fields (often due to the data flows having more than one use). Where data is available and relevant, this data should always be included in the data flow, even if the field is optional. The addition of the above statement will oblige Parties and Party Agents to include all relevant and available information and bring the SVA Data Catalogue in line with the DTC.
