

Change Proposal – BSCP40/01	CP No: 1148 <i>Version No: 1.0</i>
Title <i>(mandatory by originator)</i> Removing Section 4.6 ‘Standard File Format for Unmetered Supplies Detailed Inventories’ from BSCP520	
Description of Problem/Issue <i>(mandatory by originator)</i> The Standard File Format for Unmetered Supplies Detailed Inventories which indicates how the file containing the details of each inventory of Unmetered Supplies should be structured appears in both BSCP520 ‘Unmetered Supplies Registered in SMRS’ and Section 3 of the new Unmetered Supplies Operational Information document (formed under CP1083 ‘Removal of Unmetered Supplies operational details from BSCP520 ‘Unmetered Supplies’’, which was implemented as part of the SVA June 2005 Release). This duplication is unnecessary, and since the text of the documents is inconsistent it is also confusing.	
Proposed Solution(s) <i>(mandatory by originator)</i> The proposed solution is to remove Section 4.6 ‘Standard File Format for Unmetered Supplies Detailed Inventories’ from BSCP520. This will mean that the definitive source of the information will be contained within the Unmetered Supplies Operational Information document.	
Justification for Change <i>(mandatory by originator)</i> The change will resolve the current duplication between BSCP520 and the Unmetered Supplies Operational Information document. The Standard File Format for Unmetered Supplies Detail Inventories should be a ‘best practice’ guideline rather than a mandatory requirement, and as such should be included in the operational document rather than the BSCP. The CP will provide a single source of information while retaining the more comprehensive version of the Standard File Format for Unmetered Supplies Detailed Inventories.	
Is the Change being proposed a Housekeeping Change? <i>(optional by originator)</i> No ¹	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by originator)</i> BSCP520 ‘Unmetered Supplies Registered in SMRS’ (NB: the Unmetered Supplies Operational Information document is not a Configurable Item and is published on the BSC Website at: http://www.elexon.co.uk/documents/Market_Data/Market_Data - Unmetered Suppliers - Provisional Charging Codes/Unmetered Supplies Operational Information.pdf).	

¹ The relevant Panel Committee will decide whether a Change Proposal can be progressed as a Housekeeping Change Proposal.

Change Proposal – BSCP40/01	CP No: 1148 <i>Version No: 1.0</i>
Impact on Core Industry Documents or System Operator-Transmission Owner Code <i>(optional by originator)</i> None	
Related Changes and/or Projects <i>(mandatory by BSCCo)</i> None	
Requested Implementation Date <i>(mandatory by originator)</i> Next opportune SVA Release Reason: The CP simply seeks to move existing information from the BSCP to the Operational Information document. It is therefore low priority, and can be implemented on an opportune basis.	
Agreed Release/Implementation Date <i>(mandatory by BSCCo)</i>	
Originator's Details: <i>BCA Name</i> <i>Organisation.....ELEXON</i> <i>Email Address</i> <i>Date.....6 October 2005</i>
