

Change Proposal – F40/01	CP No: 1053 Version No: 1.0
Title <i>(mandatory by originator)</i> Upgrade of the SVAA software application to operate under Oracle Forms 9i	
Description of Problem/Issue <i>(mandatory by originator)</i> The current version of SVAA operates under Oracle 9i for the server application and Oracle Forms 6i for the client. Oracle Corporation has announced the end of Error Correction Support (ECS) for Oracle Forms 6i for all platforms as of 31 December 2004. Extended Support (ES) will be provided to all customers until 31 December 2007 if the customer has a current support contract although this will incur an additional cost. A migration path has been announced which requires the upgrade from Forms 6i to Forms 9i where Forms 9i is fully supported under ECS.	
Proposed Solution(s) <i>(mandatory by originator)</i> Upgrade the SVAA software application to operate using Oracle Forms 9i.	
Justification for Change <i>(mandatory by originator)</i> The upgraded version will maintain compatibility with the latest fully supported Oracle Forms release (9i) for both server and client components. ECS is only available with the fully supported versions of Oracle products. Reduced support is available for 3 years, at additional cost, but this does not include any error correction. Any problem encountered will probably result in a recommendation by Oracle to upgrade to the latest supported version to correct the error.	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i> SVAA Software Application SVAA Software Application Documentation	
Impact on Core Industry Documents <i>(optional by originator)</i> None identified	
Related Changes and/or Projects <i>(mandatory by BSSCo)</i>	

Change Proposal – F40/01

CP No: 1053

Version No: 1.0

Requested Implementation Date (*mandatory by originator*)

November 2004.

Reason:

ECS for Forms 6i expires as of 31 December 2004.

Agreed Release/Implementation Date (*mandatory by BSCCo*)
