

Change Proposal – F40/01	CP No: 1051 Version No:
Title: Review of Metering Code of Practice 2: Code of Practice for the Metering of Circuits with a rated Capacity not exceeding 100 MVA for settlement purposes	
Description of Problem/Issue <i>Metering CoP2 version 1.05 was originally implemented as part of the "1998 Programme" and subsequently "Re-badged" for the implementation of the Balancing and Settlement Code at "Neta Go Live".</i> <i>During this period a number of reviews had been carried out which resulted in a draft version being created, but not implemented. Subsequently, metering technology has moved forward, leaving both the operational and draft versions behind and out of date, for example passwords / D268's / TAA policing etc.</i>	
Proposed Solution(s) <i>A review is required to consolidate the operational version 1.05 and the draft version, after which a further review is required (by a Working Group) to bring CoP2 up to date with current metering technology and working practises.</i>	
Justification for Change <i>The original Metering CoP2 was implemented as part of the "1998 Programme" and has not kept pace with metering technology, resulting in the operational version being out of date and no longer fit for purpose.</i>	

Change Proposal – F40/01	CP No: 1051 Version No:
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i>	
Impact on Core Industry Documents <i>(optional by originator)</i>	
Related Changes and/or Projects <i>(mandatory by BSSCo)</i>	
Requested Implementation Date <i>The next suitable opportune release after a decision has been reached – as proposed by the established Working Group.</i> Reason: <i>The most appropriate implementation date can only be reached following completion of the relevant reviews and "due process".</i>	
Agreed Release/Implementation Date <i>(mandatory by BSCCo)</i>
