

<b>Change Proposal – F40/01</b>	CP No: 950  <i>Version No:</i>
<b>Title</b> <i>(mandatory by originator)</i> Removal of Redundant Flows From MDD	
<b>Description of Problem/Issue</b> <i>(mandatory by originator)</i>  <p>The Market Domain Data Application (MDDA) currently produces a number of Market Domain Data flows from each publish which are now considered redundant.</p> <p>There are three versions of the D0278 flow, one includes data for England and Wales only, one includes data for Scotland only, and one includes data for England, Wales and Scotland. In addition to this there are three respective versions of the D0227 flow.</p> <p>The D0278 was introduced with teleswitch and has made the D0227 flow redundant. The D0227, although still created, is not distributed to any Market Participants or used by SVAA. A fourth version of the D0227 flow, known as the SSC extract file, is still required and is distributed to Market Participants.</p> <p>ELEXON are seeking to delete the redundant versions of the D0227 flow from the MDD application in order to improve the efficiency of the MDD publishes and remove files that are no longer required from the MDD system.</p>	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  <p>Delete redundant D0227 files from MDD (England and Wales, Scotland, and England, Wales and Scotland versions).</p> <p>NOTE: It is proposed that the D0227 SSC extract file will still be produced and distributed as before.</p>	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  <p>The files have been superseded by the D0278 flow therefore there is no longer a need for the SVAA to assess the impact of any proposed changes on the D0227 files, or to produce and distribute the files.</p>

<b>Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by Originator)</i> There are no plans to remove this flow from any SVA documentation or the DTC as the D0227 SSC extract file will still be generated and distributed as before. The files that will no longer be created are not distributed to any Market Participants or used by the SVAA. No other processes should be affected by this change.
