

Attachment 1

Redlined Changes to BSCP20, BSCP515, BSCP38, CDCA URS and CRA URS as a result of the introduction of new BSCP25

BSCP20

1 Introduction

1.1 Purpose and Scope of the Procedure

This BSC Procedure (BSCP) provides for the Registration and De-registration of ~~Boundary Points or Systems Connection Points~~ and the Metering Systems ~~with which they are associated~~. This ensures that ~~all points of connection between different systems are registered and stored in the Central Registration Agent (CRA) and that~~ no Metering Systems are unaccounted for in the Settlement process. This BSCP also provides for the Registration of Metering Systems under BSCP 68 'Transfer of Registration of Metering Systems between CMRS and SMRS'.

Add paragraph as follows

Any References to the Registration and de-registration of Boundary Points and System Connection Points are covered in BSCP25 'Registration of Transmission System Boundary Points, Grid Supply Points, GSP Groups and Distribution Systems Connection Points'

1.2 Main Users of the Procedure and their Responsibilities

~~v) TRANSMISSION COMPANY or DISTRIBUTION SYSTEM OPERATOR(s):~~

- ~~• Becoming the Registrant(s) of a Boundary Point or Systems Connection Point with the CRA;~~
- ~~• Ceasing to become the Registrant(s) of such Boundary Points or Systems Connection Points;~~

1.3 Key Milestones

The key milestones in this procedure are:

- ~~• Registration of required Boundary Points or Systems Connection Points at least 20WD before such points are due to be commissioned;~~

1.5 Associated BSC Procedures

BSCP25 'Registration of Transmission System Boundary Points, Grid Supply Points, GSP Groups and Distribution Systems Connection Points'

Changes will be made to 3.1.1 and 3.1.2 which refer to BSCP25 registration of either TSBP or DSCP as applicable.

Changes similarly to 3.2.12 and 3.2.13

Changes similarly to 3.8.1 and 3.8.2

Remove BSCP20/4.9 form

BSCP515
