

<b>Change Proposal – F40/01</b>	<b>CP No: 1047</b>  <b>Version No: 1.0</b>
<b>Title</b> <i>Warning message to highlight when no Grid Supply Point (GSP) Groups are selected for a Non Half-Hourly Data Aggregation run.</i>	
<b>Description of Problem/Issue</b> <i>(mandatory by originator)</i>  <p><i>The Elexon testing team identified an issue when testing Non Half Hourly Data Aggregator (NHHDA) software.</i></p> <p><i>This issue occurs when an aggregation run is performed and the System Parameter is not set to 'Aggregate for all GSP Groups'. If no GSP Groups are selected, the status on the Schedule Run Aggregation screen is erroneously defined as successful (s) on the screen. An error log is also produced for this run with the message ' No GSP groups retrieved for run nnnn' and no Supplier Purchase Matrix (SPM) is produced.</i></p> <p><i>This issue also occurs when the System Parameter is set to 'Aggregate for all GSP Groups' and the User does not enter a GSP Group for a Dispute Aggregation run. This issue does not occur for all other run types for which the System Parameter is set to 'Aggregate for all GSP Groups'.</i></p> <p><i>This is misleading.</i></p>	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  <p><i>It is proposed that when the System Parameter is not set to 'Aggregate for all GSP Groups', that an early warning message is displayed to highlight that no GSP Group has been named. This message could be displayed either at the time of data entry or when the data aggregation run is set to a status of released.</i></p> <p><i>It is also proposed that when the System Parameter is set to 'Aggregate for all GSP Groups' and no GSP Groups are selected for a Dispute Aggregation Run, that an SPM is produced for all GSP Groups held.</i></p>	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  <p><i>This issue was identified by the Elexon testing team at Leatherhead (PMR 9513 Defect Number112). PMR 25811 was also raised by Yorkshire Electricity.</i></p> <p><i>This issue was raised at the Software Technical Advisory Group (STAG) on the 12/6/2001 and STAG members consider this issue to have a medium priority.</i></p> <p><i>This issue was again raised at STAG on the 15/1/04 and STAG members confirmed that the issue should be progressed with medium priority.</i></p>	
<b>Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by Originator)</i>	
<b>Impact on Core Industry Documents</b> <i>(optional by originator)</i>	
<b>Related Changes and/or Projects</b> <i>(mandatory by BSSCo)</i> None
