Change Proposal – F40/01		CP No: 944 Version No: 1.0															
Title <i>(mandatory by originator)</i> Interconnector Administrator Data Flows																	
Description of Problem / Issue <i>(mandatory by originator)</i> The Interconnector Administrator (IA) is required under the BSC to submit a file of Deemed Metered Volumes within 2 working days of the Settlement Day for the Interconnector concerned. This requires the IA to have the necessary Interconnector BM Unit Registration details. Currently there is no provision within the IDD to provide the IA with this BM Unit Registration data and therefore the IA currently relies upon the party registering the BM Units to provide the necessary information. To enable the Interconnector Administrator to fulfil its role it is important that formal notification of Interconnector BM Unit registration is provided via a specific data flow from the Central Registration Agent (CRA). This Change Proposal seeks to address this issue by requesting a separate data flow to be provided to the IA from the CRA.																	
Proposed Solution(s) <i>(mandatory by originator)</i> Provision of a separate data flow from the CRA to the IA Data to be provided should include: <table border="0"> <tr> <td colspan="3">BSC Party</td> </tr> <tr> <td colspan="3">BSC Party ID</td> </tr> <tr> <td>Interconnector Production BM Unit ID</td> <td>Registered Capacity</td> <td>+ive value</td> </tr> <tr> <td>Interconnector Consumption BM Unit ID</td> <td>Registered Capacity</td> <td>-ive value</td> </tr> <tr> <td colspan="3">Effective Date</td> </tr> </table>			BSC Party			BSC Party ID			Interconnector Production BM Unit ID	Registered Capacity	+ive value	Interconnector Consumption BM Unit ID	Registered Capacity	-ive value	Effective Date		
BSC Party																	
BSC Party ID																	
Interconnector Production BM Unit ID	Registered Capacity	+ive value															
Interconnector Consumption BM Unit ID	Registered Capacity	-ive value															
Effective Date																	

Change Proposal – F40/01	CP No: 944 Version No: 1.0
Justification for Change <i>(mandatory by originator)</i> Currently there is no provision for the formal supply of Interconnector BM Unit registration data to the Interconnector Administrator. Provision of such information will allow the IA to update its systems and procedures and perform its duties in the timescales required by the BSC.	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i>	
Impact on Core Industry Documents <i>(optional by originator)</i>	
Related Changes and/or Projects <i>(mandatory by BSSCo)</i>	
Requested Implementation Date <i>(mandatory by originator)</i> The next suitable BSC Systems Release following the required review and impact assessment process. Reason:	
Agreed Release/ Implementation Date <i>(mandatory by BSCCo)</i>
