Title <i>Improvements to BSCP31</i>	
Description of Problem/Issue <i>(mandatory by originator)</i> A number of inconsistencies and ambiguities are present within Balancing and Settlement Code Procedure (BSCP) 31, 'Registration of Trading Units'. Issue 1: BSCP31/4.5 is sent by the BSCCo to the Central Registration Agent (CRA), the Applicant and the Transmission Company (TC) for all classes of application. BSCCo has to confirm effective from date for the Trading Unit and Grid Supply Point (GSP) Group (where appropriate). BSCCo also has to give formal notification to the Lead Parties to inform BSCCo if there is a change in the circumstances of a BM Unit that will affect the registration. The form does not contain fields for this information. Issue 2: CRA should confirm to the BSCCo when any registration activity has taken place, in order that the BSCCo is aware that they have carried out this action. Issue 3: Section 4.1 of BSCP31 states that the Trading Unit Identifier is required for the registration of Exempt Export BM Units within Trading Units. This is not the case – the Trading Unit Name is required.	
Proposed Solution(s) <i>(mandatory by originator)</i> Proposed Issue 1 resolution: Modify BSCP31/4.5 to include <ul style="list-style-type: none"> • A field for Effective from date for the Trading Unit • A field for Effective from date for the GSP Group (where appropriate) • A sentence stating that 'Pursuant to Section K of the Balancing and Settlement Code, 'Classification and Registration of Metering Systems and BM Units', the Lead Party of each BM Unit shall forthwith notify the BSCCo if there is a change in the circumstances of that BM Unit that may affect its registration within a Trading Unit' 	

Change Proposal – F40/01	CP No: 1040 Version No: 1
<p>Proposed Issue 2 resolution:</p> <p>The 'To' box for Reference 3.1.11 should be modified to include 'BSCCo'.</p> <p>Proposed Issue 3 resolution:</p> <p>Modify the sub-section of 4.1 that details requirements for Exempt Export BM Units such that 'Trading Unit Identifier' is modified to 'Trading Unit Name'.</p>	
<p>Justification for Change <i>(mandatory by originator)</i></p> <p>During the walkthrough of BSCP31 required for the implementation of Modification P7, 'Allocation of Supplier Demand to the same BM Unit in a GSP Group for all Suppliers in the same company group', difficulties were identified with the operation of some processes. As these were not directly related to the changes required for P7 the BSC Systems Release Project had no authority to amend those areas of the BSCP. It was agreed that a Change Proposal would be raised to address the issues raised above.</p>
