

Change Proposal – F40/01	CP No: 1111 <i>Version No: 1.0</i>
Title: GSPGCF Relocation	
Description of Problem/Issue: GSP Group Correction Factor (GCF - P0048) is the only Market Indicator supported by pre P99 PARMS (“old PARMS”) which is not supported by the post P99 PARMS (“new PARMS”). ISRA MSID Count (IMC) has become a Serial and is supported by new PARMS. Mix of Actuals and Estimates (MAE - P0049) will be supported by new PARMS as part of P99 Phase 4. ISRA Data Availability (SCM) has been discontinued since P99 Phase 1 Go-Live. This Change Proposal proposes that GSPGCF Market Indicator is supported by new PARMS. P157 “Replacement of current Supplier Charges rules” is currently with the Authority awaiting decision. If P157 is approved it is to be implemented on a Calendar Day basis in new PARMS and will not allow any resubmissions that would affect data in old PARMS. At this point old PARMS will not need to be maintained at all.	
Proposed Solution(s): It is proposed that new PARMS is amended to support GCF Market Indicator. This will involve new PARMS loading the weekly flow from SVAA and the migration of existing GCF data (since September 1998) from old PARMS. No change to the format of the file from the Supplier Volume Allocation Agent (SVAA) is required or suggested.	
Justification for Change <i>(mandatory by originator)</i> Without this change ELEXON will have to maintain a complex piece of software based on an old Operating System and RDBMS (Windows NT 4.0/SQL Server 6.5) indefinitely. These products are no longer supported by Microsoft, so the risk that this will at some stage become impossible increases with time. The cost of implementing the change new PARMS will be greater if it is not done within the scope of a release involving PARMS changes. Additionally if P157 is implemented the business case for relocating GSPGCF at the same time as it is implemented is augmented since old PARMS would no longer be required for any other purpose.	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i> New PARMS and associated documentation.	

Change Proposal – F40/01	CP No: 1111 <i>Version No: 1.0</i>
Impact on Core Industry Documents <i>(optional by originator)</i>	
Related Changes and/or Projects <i>(mandatory by BSCCo)</i>	
Requested Implementation Date <i>(mandatory by originator)</i> Approval of P157 by the Authority will affect the implementation date for this change. Reason:	
Agreed Release/Implementation Date <i>(mandatory by BSCCo)</i>
