

Change Proposal – F40 / 01	CP No: 1008 <i>Version No:</i>
Title <i>(mandatory by originator)</i> Removal of the Obligation on ELEXON to raise Amendment Records from BSCP40 'Change Management'	
Description of Problem / Issue <i>(mandatory by originator)</i> An Amendment Record (AR) is a record produced by ELEXON following the approval of a CP, that provides exact details of how a Configurable Item will be amended as a result of that CP. This is an internal ELEXON process. The obligation to raise ARs is contained within BSCP40 Section 2.2, though there are references to it elsewhere in the BSCP. Working practice within ELEXON has identified that the raising of these ARs is a superfluous exercise and that they are not necessary.	
Proposed Solution(s) <i>(mandatory by originator)</i> Remove the obligation to raise ARs, and all references to them, from BSCP40.	
Justification for Change <i>(mandatory by originator)</i> This is an internal process and has proven to be superfluous.
