

Change Proposal – F40/01	CP No: 1002 Version No: 1.0
Title <i>(mandatory by originator)</i> Change to BSCP40 'Change Management' to allow energywatch to raise Change Proposals	
Description of Problem/Issue <i>(mandatory by originator)</i> energywatch are currently not listed in BSCP40 as authorised to submit Change Proposals. They are therefore unable to raise Change Proposals, which is inconsistent with the approach defined in the Balancing and Settlement Code (the Code) in relation to raising Modification Proposals. Section F, 2.1.1 (b) allows energywatch to raise Modification Proposals.	
Proposed Solution(s) <i>(mandatory by originator)</i> BSCP40 should be changed to allow energywatch to submit Change Proposals and also to participate in the change process. energywatch would be required to nominate a Change Administrator in the same way as BSC Parties.	
Justification for Change <i>(mandatory by originator)</i> The omission of energywatch from BSCP40 is a historic continuation from AP40 during the Pool, the rationale for which no longer applies. There is no reason why energywatch should not be able to raise Change Proposals or to participate in the change process. In addition, allowing energywatch to raise a Change Proposal will ensure that there is a consistent approach between the Modification Procedure and Change Proposal procedure.	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i> None additional to BSCP40 listed in Proposed Solution.	
Impact on Core Industry Documents <i>(optional by originator)</i> None anticipated.	
Related Changes and/or Projects <i>(mandatory by BSCCo)</i> None.	
Requested Implementation Date <i>(mandatory by originator)</i> As soon as practicable. Reason: Involves only a minor change to BSCP40.	
Agreed Release/Implementation Date <i>(mandatory by BSCCo)</i>
