

Change Proposal – F40/02 (Page 1 of 2)	CP No: 875 <i>(mandatory by BSCCo)</i>
Title SVA Data Catalogue P0206 Data Item Omission	
Description of Change <p>The P0206 required change of profile class flow includes the Meter Register ID data items. These are only of value if supplied with the relevant Meter_ID from which they were extracted. Where a number of meters exist on a metering system, each with one or more MD registers, the existing P0206 flow will only indicate the register id and not the meter from which it was extracted.</p> <p>This proposal requests that the SVA Data Catalogue be amended to include the data item Meter ID.</p>	
Proposed Solution(s) <p>That the SVA Data Catalogue be amended for the next version to be issued.</p>	
Justification for Change <p>This issue has been raised by Caroline Ainslie of Scottish Power (Calanais Ltd) and is recorded in PMR 25530, and also by Paul Saker of ECS Metering in PMR 31484. Carrying out the proposed solution will clarify the published Documentation</p>
