

Change Proposal – F40/02 (Page 1 of 2)	CP No: 854 (mandatory by BSCCo)
Title (mandatory by originator) Provision of a new Balancing and Settlement Code Procedure (BSCP) covering Meter Operator Agent processes for Supplier Volume Allocation (SVA) Metering Systems.	
Description of Change (mandatory by originator) This new BSCP is required to formalise SVA MOA processes and procedures and will cover the following areas: • Appointment changes • Market data activities • Connections and disconnections • Metering system (MS) Energisation status • Change of Measurement Class • MS Replacement or reconfiguration • Proving and Validation • MS investigations and meter reading amendments • Receipt and Processing of Market Domain Data • SVA Meter System standing data changes • Sealing of Metering Equipment	
Proposed Solution(s) (mandatory by originator) The BSCP will be designed in line with the principles adopted in other SVA BSCPs.	
Justification for Change (mandatory by originator) BSC Parties and agents have been requesting this new BSCP in order to formalise MOA procedures.	

Change Proposal – F40/01 (Page 2 of 2)	CP No: 854 <i>(mandatory by BSCCo)</i>
Other Configurable Items Potentially Affected by Proposed Solution(s) (optional by BSCCo) PSL 110 ‘SVA Meter Operation’ BSCP502 ‘Half Hourly Data Collection for SVA Metering Systems Registered in SMRS’ BSCP504 ‘Non-Half Hourly Data Collection for SVA Metering Systems Registered in SMRS’ BSCP508 ‘Supplier Volume Allocation Agent’ There may be an impact on the Business Process Model	
Impact on Core Industry Documents (optional by originator) None
