<b>Change Proposal – F40/01 (Page 1 of 2)</b>	<b>CP No: 845</b> <i>(mandatory by BSCCo)</i>
<b>Title</b> <i>(mandatory by originator)</i> PARMS – Correction To LD Reports	
<b>Description of Change</b> <i>(mandatory by originator)</i>  <p>Since the introduction of NETA, it is possible for a Supplier to have a negative Deemed Take in the Stage 2 market.</p> <p>There is a defect in the PARMS application that prevents the LD reports being produced if this situation occurs.</p> <p>In addition, functionality to electronically distribute the reports to Suppliers and Parties that was introduced and tested in an earlier version of the system was not kept up to date when changes were made to the software to produce the paper based reports. This should be corrected to allow electronic distribution of the reports.</p>	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i>  <p>Amend the software to produce the LD reports electronically in all instances.</p> <p>Note that P68 involves a change to the LD Calculation, and the LD reports, including BSCP 536. It is intended to include all these changes in the same version of the software.</p>	
<b>Justification for Change</b> <i>(mandatory by originator)</i>  <p>ELEXON must be able to produce the reports to fulfil its BSC obligations.</p> <p>Being able to produce and distribute the reports electronically means a significantly reduced workload when running LDs, and gives the recipients the ability to process them automatically.</p>
