

<b>Change Proposal – F40/02 (Page 1 of 2)</b>	<b>CP No: 814</b> <i>(mandatory by BSCCo)</i>
<b>Title</b> <i>(mandatory by originator)</i> Allow Amendments to ISRA Calendar	
<b>Description of Change</b> <i>(mandatory by originator)</i> <p>The ISRA application does not allow Settlement Calendar data to be amended once the Initial Settlement run has been processed for the date in question, even with Standing Data Manager access. Logica have stated that the application is working to specification. The 1999-2000 Calendar required over 4000 dates to be entered manually, of which approximately 30% were dates for which Initial Settlement runs had already been processed. This number may increase in future Calendars as the full reconciliation cycle has been reached.</p> <p>These dates are also used by the Logging Application to calculate performance against deadlines.</p>	
<b>Proposed Solution(s)</b> <i>(mandatory by originator)</i> The ISRA application should be changed to allow calendar data to be amended via Standing Data Manager for dates for which the Initial Settlement has already been run.	
<b>Justification for Change</b> <i>(mandatory by originator)</i> <p>The 1999-2000 Calendar required over 4000 dates to be entered manually, of which approximately 30% were dates for which Initial Settlement runs had already been processed. This number may increase in future Calendars as the full reconciliation cycle has been reached.</p>	
<b>Other Configurable Items Potentially Affected by Proposed Solution(s)</b> <i>(optional by BSCCo)</i> None	
<b>Impact on Core Industry Documents</b> <i>(optional by originator)</i> None
